EXPERIENCE

Sonatype, Remote — Engineering Manager, Product Owner

June 2023 - PRESENT

Led engineering teams delivering Sonatype's first AI-powered SDLC product, while contributing code as well. Delivered key enhancements to Sonatype's Lifecycle. Maintained high on-time delivery via accurate estimates and stakeholder communication. Supported >10 engineers of various skill levels and disciplines. Mentored two international interns.

Sonatype, Remote — Software Engineer & Tech Lead

September 2021 - June 2023

Led UI/UX-focused feature development for Sonatype's Lifecycle. Spearheaded migrations from AngularJS to React. Facilitated Agile ceremonies and collaborated with Project Management and Design to forecast and deliver enhancements.

Wisconsin Center for Education Research, Madison, WI — Software Engineer

May 2019 - May 2021

Implemented applications supporting UW-Madison's School of Education, including the nationally lauded Cooperative Children's Book Center (CCBC), the OnPar learning assessment tool, and bespoke billing and email applications.
